GENERAL SAFETY

Read this manual thoroughly before you start using the Urbanworx Action Camera.
Store this manual, the completed warranty card, your receipt and the product packaging.
The safety precautions instructions reduces the risk of fire, electric shock and injury when correctly complied to.

Please follow all instructions and take notice of all warnings.

To reduce the risk of injury:
- Keep batteries out of reach of children.
- Do not heat, open, or dispose of battery pack in fire.
- Do not allow metal objects to touch the battery on the device.
- Do not expose battery pack to excessive heat.

WARNING:
Use caution when using you Action Camera as part of your active lifestyle. Always be aware of your surroundings to avoid injury to yourself and others.

Abide by all local laws when using your Action Camera and related mounts and accessories, including all privacy laws, which may restrict recording in certain areas.

CAUTION:
Danger of explosopn if the battery is incorrectly replaced.
Replace only the same or equivalent type.

Incorrect usage of batteries may result in battery leakage, overheating, or explosion.
Released battery fluid is corrosive and can be toxic. It can cause skin and eye burns, and is very harmful if swallowed.

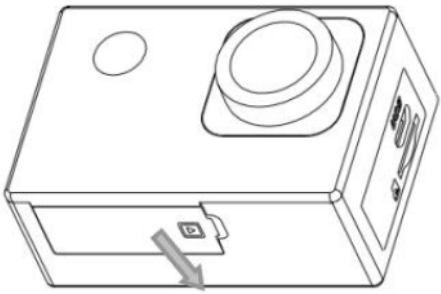
REMOVING BATTERY

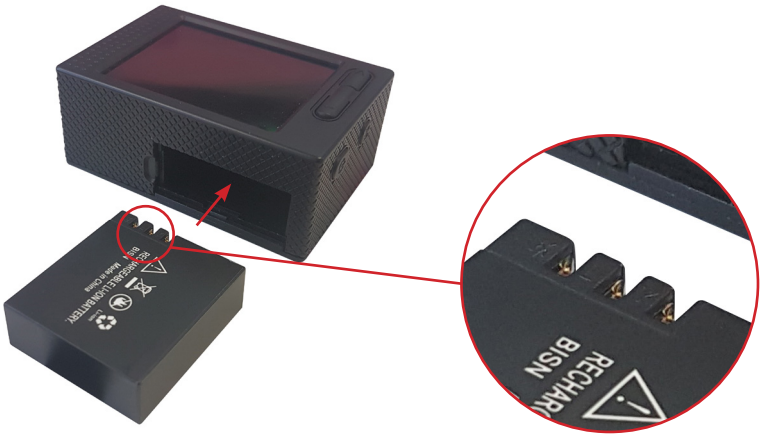
Removing battery from the camera

1. Remove the battery door by placing your thumb.

2. Allow the door to pop out, grasp the battery pull-tab and remove from the camera.



3. When re inserting the Battery pack, ensure the LCD side of the Action Camera is facing up and the Battery pack connections facing up and insert the battery pack. (refer to below picture)



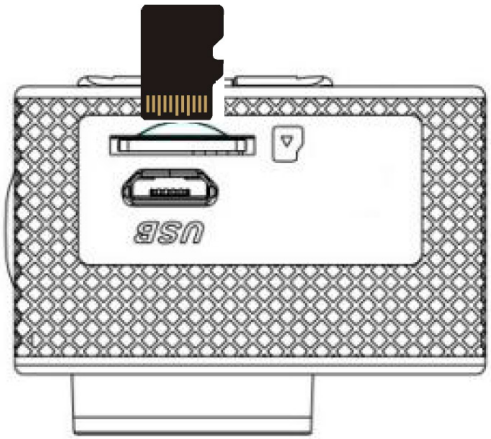
CHARGING

Charge the built-in Lithium Battery
The camera is equipped with a built-in 3.7V lithium battery. Please ensure it is charged before first time use.

Connecting the camera to a computer for charging, the light indicator will turn on and will turn off once the action camera is fully charged. (takes about 4 hours)/

MEMORY CARD USE

NOTE: Memory card is not included
The micro SD card can be inserted on the side of the camera, on the side the Micro USB is located.



To remove the Micro SD Card, Press the end of the inserted memory card gently, the card will be ejected.

ACCESSING FILES

Accessing files from a computer

Using the Micro USB cable provided, plug in your Aciton Camera to your PC and your PC will automatically detect the action camera. You will then be able to access all the Video's and Photo's taken.

Viewing the files from a TV

Using the Micro USB cable provided, plug in your Aciton Camera to your TV. Your TV will then automatically detect the USB device. You will then have to Select USB mode on your TV (refer to your TVs Instruction Manual).

WRIST REMOTE CONTROL

1. Undo the strap and fit it around your left wrist, please ensure it is on your left wrist as the infrared sensor will need to face towards the Action Camera to work correctly.

2. To take a Photo, press the Photo (Camera) button to take a photo.
If in another mode, press the button once and it will take it to “Shooting Mode”, then press again to take a photo.
